

Product No: HVL60-0.3

ABB HVL60-0.3 LOW VOLTAGE LIMITER WITHOUT SPARK GAPS, 60V

FEATURES

- - Hybrid voltage limiter
- - Used primarily in DC traction systems
- - Limits touch voltages & protect against electric shock
- - Standards EN 50526-2

General Information

| | |
|--------------|-------------------------|
| Brand | ABB |
| Product Type | Voltage Limiting Device |

Technical Attributes

| | |
|--|----|
| Lightning Impulse Current (8/20 μ s) - Iimp-n (kA) | 25 |
| Nominal Triggering Voltage - UTn (V) | 60 |
| Non-Triggering Voltage (V) | 48 |
