

Product No: CBLAB002

RED LION CABLE – CONNECTS TO AB PLC –5 VIA CHANNEL 0 CBLAB002

FEATURES

- PID Controller with 1/16 DIN size
- Power connection options include DC 24 VDC
- Main control output logic is SSR (Solid State Relay)
- Features one user input
- Equipped with RS-485 serial communication
- Excitation current for RTD inputs at 180 mA
- Accepts process inputs of 0–5V or 0–10V DC and current inputs of 0–20mA or 4–20mA
- Optional CT input ranging from 0 to 25 mA AC for single-phase applications

General Information

Brand	RED LION
Series	PXU

Technical Attributes

Nominal Power (W)	5
Rated Minimum Operational Voltage DC (V)	24

Physical Attributes

Maximum Temperature (°C)	50
Minimum Temperature (°C)	0

Protection & Standards

Degree of Protection	IP65
