

Product No: ASP110420SL

DEHN NON-CONT. VOLT. DET. 110-420kV F. OVERHEAD LINES + OUTDOOR SWITCH ASP110420SL

FEATURES

- ASP distance voltage detector
- For contactlessly verifying that all poles are dead
- Category "S" and "L" for overhead lines and outdoor switchgear installations
- Suitable for use in wet weather conditions
- With visual and acoustic indication and self-testing element
- Storage bag included

General Information

Brand	DEHN
Model	1-pole
Product Type	Arc Fault Protection
Reference No.	767573
Type	Safety Equipment

Technical Attributes

Nominal Voltage (V)	110 ... 420
Rated Frequency (Hz)	50
Voltage Type	AC

Physical Attributes

Design	Single-pole
Material	Indicator - Plastic, Insulating stick - Glass-fibre reinforced polyester tube, Electric field sensor - Plastic

Dimensions

Dimensions (mm)	37W x 111H x 20D
Total Length (mm)	1000

Protection & Standards

Standards and Approvals

EN 50110-1 (DIN VDE 0105-100)
