

Product No: LS32P51B11

ABB LS32P51B11 LIMIT SWITCH LS32P51B11

FEATURES

- Compact design, top-mounted holes for easy installation
- Fire-resistant material for enhanced safety
- Bottom cable entry for convenient cable connection
- Adjustable roller lever
- Dual snap action contacts

General Information

Brand	ABB
Product Type	Safety Switch

Technical Attributes

Design of Control Element	Plunger
Connection Type	Cable Entry Metrical
Contacts	1NO+1NC - Snap Action
No. of Normally-closed Contacts	1
No. of Normally-open Contacts	1
Rated Operational Current AC-15 130V (A)	5.5
Rated Operational Current AC-15 230V (A)	3.1
Rated Operational Current DC-13 110V (A)	0.6
Rated Operational Current DC-13 24V (A)	6
Rated Operational Current DC-13 250V (A)	0.4
Switching Type	Quick-break Switch

Physical Attributes

Actuator Type	Adjustable Plastic Roller Lever (Ø18 mm)
Housing Material	Plastic
Material	Fiber-glass Reinforced UL-V0
Minimum Temperature (°C)	-25

Dimensions

Sensor Height (mm)	98.5
--------------------	------

Dimensions

Sensor Length (mm)	45.5
Sensor Width (mm)	30
Width (mm)	30

Protection & Standards

Degree of Protection	IP65
----------------------	------
