

## Product No: H923

### VERIS INDUSTRIES SPLIT-CORE CURRENT TRANSDUCER H923

#### FEATURES

- SFP (Small Form-factor Pluggable) transceiver module
- Designed for Gigabit fiber networks
- Single-mode with a reach of up to 10 kilometers
- Compatible with Red Lion brand products
- Suitable for use with 5-digit LPAX displays
- Part of the Network Solutions category, under Accessories group
- Identified by part number GSFIBER-SFP-10K

#### General Information

Brand	VERIS
Product Type	Split-Core
Series	H923
Type	Split-core

#### Technical Attributes

Accuracy	±2% F.S. from 10% to 100%
Amperage Range (A)	0 to 20/100/150
Class of Insulation	300 Vac RMS
Output Type	Analog
Output Voltage DC (V)	0 - 10
Rated Frequency (Hz)	50/60 (Nominal)
Response Time (s)	2
Torque (Nm)	0.4-0.5 (Terminal Block)

#### Physical Attributes

Operational Temperature Range (°C)	-15 to +60
------------------------------------	------------

#### Dimensions

Cable Cross Section (mm <sup>2</sup> )	0.2 to 2.1
--	------------

## Protection & Standards

Pollution Degree 2
