

Product No: 103003897

SCHMERSAL SLC440COM-ER-0490-14 SAFETY LIGHT CURTAIN 103003897

FEATURES

- Safety light curtain with restart interlock and integral system diagnostics
- 40 beams for comprehensive coverage
- Two fail-safe digital outputs for reliable operation
- Connector terminal for easy installation
- Detection capability of 14 mm for fine object resolution
- Protection field height of 410 mm to cover various machine sizes
- Operating voltage of 24 VDC suitable for standard industrial applications
- Electrical power consumption of just 10 W for energy efficiency

General Information

Brand	SCHMERSAL
Series	SLC

Technical Attributes

Nominal Power (W)	10
Rated Maximum Operational Voltage DC (V)	24

Physical Attributes

Maximum Temperature (°C)	50
Minimum Temperature (°C)	-10

Protection & Standards

Degree of Protection	IP67
