

## Product No: BXTM2BDSEX24

### DEHN BLITZDUCTOR XT COMBINED LIGHTN AND SURGE ARRESTER MOD 920383 BXTM2BDSEX24

#### FEATURES

- Maximum discharge capacity for two-pole, three-pole or four-pole interfaces
- Low voltage protection level, capable of protecting terminal equipment
- Wide range of approvals: ATEX, IECEx, CSA Hazloc
- Easy replacement of protection modules without force
- All protection components are integrated in the protection module
- Arrester with integrated RFID LifeCheck for preventive arrester monitoring
- DIN rail mounted arrester with integrated earthing
- Minimum space requirements, two pairs over a width of 12 mm
- Vibration and shock-tested for safe operation

#### General Information

Brand	DEHN
Product Type	Arrester

#### Technical Attributes

Maximum Continuous Voltage AC (V)	36
Maximum Continuous Voltage DC (V)	25.4
Nominal Discharge Current (8/20 $\mu$ s) - In (kA)	5
Nominal Voltage (V)	24

#### Physical Attributes

Colour	Blue
Operational Temperature Range (°C)	-40 °C to +80 °C

#### Dimensions

Weight (g)	50
------------	----

## Protection & Standards

Degree of Protection

IP20
