

Product No: EX-13EA

PANASONIC ULTRA-SLIM PHOTOELECTRIC SENSOR, NPN EX-13EA

General Information

Brand	PANASONIC
Product Type	Safety Sensor
Type	Standard, Thru-beam side sensing

Technical Attributes

Emitting Element	Red LED (modulated)
Output Operation	Light-ON
Current Consumption (mA)	10 or less
Operating State/Fault Indication	Operation - Orange LED
Outputs	NPN open-collector transistor
Rated Supply Voltage DC (V)	12 - 24
Sensing Range (mm)	500
Standard Sensing Object	ø2 mm opaque object

Physical Attributes

Ambient Temperature Range (°C)	-25 to +55
Material	Body- Polyethylene terephthalate, Lens- Polyacrylate

Dimensions

Weight (kg)	0.02
-------------	------

Protection & Standards

Degree of Protection	IP67
----------------------	------

Pollution Degree	3
------------------	---
