

Product No: SLR01

PULS DIODE REDUNDANCY MODULE 24V 40A SLR01

FEATURES

- Redundancy module for building redundant systems
- Single input module; 40A ampacity
- Alarm relay-contacts monitors the input voltage
- Only 0.5V voltage drop between input and output under full load
- Full output current between -10 and +60°C

General Information

Brand	PULS
Country of Origin	Czech Republic
Customs Tariff Number	85044083
E Classification	E-CS03
Product Type	Diode
Range	SilverLine
Series	SL series
Warranty Period (Months)	36

Technical Attributes

Connection Type	Screw terminals
Efficiency	%
Input Voltage Range DC (V)	24
Maximum Input Voltage DC (V)	28
Minimum Input Voltage DC (V)	24
Minimum Output Current (A)	40
No. of Inputs	0
Output Voltage (V)	24
Rated Current (A)	40
Use In Crosslinking	Yes

Physical Attributes

Conformal Coating	No
Mounting Type	DIN Rail

Dimensions

Dimensions (mm)	48W x 124H x 117D
Weight (g)	650

Protection & Standards

Degree of Protection	IP20
