

## Product No: 101207362

### SCHMERSAL SLG 420-E/R0500-02-RFH SAFETY LIGHT GRID 101207362

#### FEATURES

- Safety light grid with restart interlock and beam coding
- Integral System Diagnostics for enhanced safety monitoring
- Features 4 beams for reliable object detection
- Equipped with 2 fail-safe digital outputs
- Connector type terminal for easy installation
- Detection range and protection field height of 900 mm each
- Operates at a voltage of 24 VDC with an electrical power consumption of 8 W
- Part of the SLG series designed for machine safety applications

#### General Information

Brand	SCHMERSAL
Series	SLG

#### Technical Attributes

Nominal Power (W)	8
Rated Maximum Operational Voltage DC (V)	24

#### Physical Attributes

Maximum Temperature (°C)	50
Minimum Temperature (°C)	-25

#### Protection & Standards

Degree of Protection	IP67
----------------------	------
