

LEARO HOME

Designed in Norway,
for Nordic homes.

LEARO®

A new take on the door handle.

LEARO Home was developed with one idea in mind: the door handle should be as thoughtfully designed as the rest of the home.

With clean lines, concealed fixings and carefully selected materials, LEARO creates a calmer, more cohesive look on both sides of the door.

The result is a detail that feels natural in the room - and right every time you use it.

Three expressions. One design philosophy.

Choose the finish that suits your home.

Each finish has been carefully developed to complement different interiors, materials and architectural styles - without compromising on quality, function or detail.

Available in three carefully selected finishes.

White

Clean and integrated.

Titanium Grey

Discreet and sophisticated.

Black

Distinctive and architectural.

Developed for everyday life. Made to last.

From the first touch to the final close, every line, transition and surface has been carefully considered.

The result is a handle that feels natural to use - and right to live with.

Clean lines, carefully selected materials and a design-protected construction create a lasting sense of quality.

A handle should do more than just work. It should feel right.

Considered down to the smallest detail.

LEARO Home was developed with a focus on precision, quality and durable materials - for a clean look that lasts for many years.

Powder-coated aluminium

A durable surface developed for daily use.

Precise construction

Engineered for stable, long-lasting performance.

Concealed fixings

A clean, uncluttered look on both sides of the door.

Considered detailing

Design and function developed as a single whole.

Designed for standard interior doors

Designed for door thicknesses of 38-42 mm.

Easy installation

Everything needed for installation is included in the box.

Quality

Carefully selected materials and precision manufacturing ensure a long service life.

Part of the architecture.

Designed to become a natural
part of the whole.

Contrast
with
purpose.

LEARO HOME

Designed in Norway, for Nordic homes.
