4 Applicable requirements

In accordance with **REACH Annex XVII, Entry 77**, wood-based articles shall not release formaldehyde in concentrations exceeding:

0.062 mg/m³ (air concentration in test chamber)

when tested in accordance with the methods specified in **Appendix 14 to Annex XVII**.

This limit level corresponds to the harmonised EU emission class and is internally designated by Forestia AS as **½E1**.

5 Compliance statement

Forestia AS hereby declares, under its sole responsibility, that the products identified in Section 3:

- are **designed, manufactured, and controlled** to ensure that formaldehyde emissions remain **below 0.062 mg/m³**,
- have been assessed using recognised and technically equivalent chamber test methods, including but not limited to **EN 16516 and EN 717-1**, and
- **comply with the requirements** set out in **Commission Regulation (EU) 2023/1464** and **REACH Annex XVII (Entry 77)** when placed on the market within the declared scope.

This declaration is based on:

- internal production control,
- routine testing and/or type testing,
- and documented compliance verification procedures in accordance with applicable standards and regulatory expectations.

6 Date of validity

This Declaration of Compliance applies to products placed on the market from:

1 January 2025.

and remains valid provided that:

- no significant changes are made to product composition, raw materials, or manufacturing processes that may affect formaldehyde emissions,
- and that applicable regulatory requirements remain unchanged.

7 Verification

This declaration is issued on behalf of Forestia AS and reflects the company's formal compliance commitment in relation to the applicable EU legislation.
