Oras Electra

More than 30 years of experience in electronic faucets truly shows in Oras Electra, our most widely used and versatile touchless faucet family. Oras introduced the touchless faucets in the public premises already in the 1990s, and in the 21st century, the electronic faucets have rapidly become more common also in the household use. With touchless faucets, water consumption can be reduced by half, while user-friendliness and hygiene rise to a whole new level.
