Reach Compliance candidate List 223 including Annex XIV and XVII

Dear Customer,

Thank you for your enquiry regarding the status of McAlpine & Company's plans for compliance with Reach Regulations.

In partnership with our material suppliers, we have established that there are no substances in our polymer moulding materials which require to be authorised under The Reach Regulation and therefore are compliant with EU Reach Regulations (EC) No 1907/2006.

We furthermore confirm that all our products do not contain any REACH Annex XIV and/or Reach Annex XVII substances or any substances in the recently published ECHA candidate list. (17/01/22).

Yours faithfully,

John Gordon
General Manager
