

# Navigate compliance with confidence

As emissions regulations become more stringent along with the expansion of the Emission Control Areas (ECAs), reliable emission control is essential to keeping your vessel compliant and operational. Wilhelmsen Ships Service delivers proven solutions to help reduce Nitrogen Oxide (NOx) and Sulphur Oxide (SOx) emissions from marine engines, supporting compliance with MARPOL Annex VI.

## Our range of emission control chemicals

Product number:  
912001

High-purity 40% aqueous urea solution for reducing NOx Emissions in SCR systems

ISO 18611 compliant, meeting manufacturer requirements

Proven 90-95% NOx reduction

High quality caustic soda solution with flexible concentrations (20-50%)

ASTM E291-18

Safe, efficient neutralization of SOx through exhaust gas cleaning systems (scrubbers)

Product number:  
912012

Flexible delivery options to seamlessly bring the product to the vessel

## Benefits of partnering with Wilhelmsen Ships Service

### Competitive Pricing

Attractive all-inclusive rates with barging and pumping, where possible

### Trusted Quality

NOx – IMO Tier III compliant (ISO 18611 standard)  
SOx – ASTM E291-18 Compliant

### Timely Response

Prompt and proactive support to address your needs

### Unparalleled Delivery Experience

Seamless last-mile-delivery service for peace of mind

### Global Reach

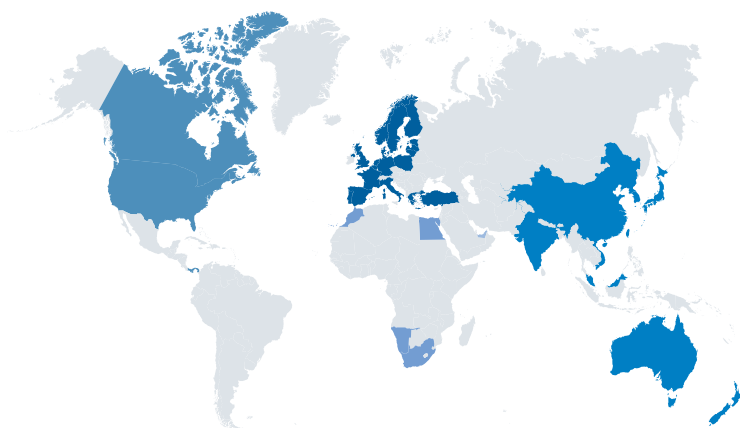

Extensive network for reliable deliveries worldwide

### Convenience

One stop shop for all your chemical needs

## Delivery Capabilities
